

SDI Review Form 1.6

Journal Name:	Journal of Experimental Agriculture International
Manuscript Number:	Ms_JEAI_44790
Title of the Manuscript:	Estimation of Variability, Heritability and Genetic Advance of Exotic Rice (<i>Oryza sativa</i> L.) Breeding Lines for Short Growth Development
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	See the attached file	
Minor REVISION comments	See the attached file	
Optional/General comments	See the attached file	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i> Yes, there are ethical issues in this manuscript. The major problem of early maturing line in general is the lowest yields. This study permitted to identify some early maturing rice line which could be popularize or used in future breeding programs. That could help to reduce hunger in the world.
