PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The paper is important because it provides information for the management of crops of Solanum paniculatum in conditions of thermal stress.	
	The objective of work is clear and precise The materials and methods are very well developed, complete and clear. The results are presented very clearly in both the graphics and the text Although the conclusions presented are correct, the large amount of information presented allows to be more conclusive in the results and to improve and extend the conclusions	
Minor REVISION comments	The research is very well conducted, the information obtained is presented in the paper in a clear way without being tedious reading. As a contribution to improve the scientific quality of the paper, I would review the conclusions trying to expand them and be more forceful in them.	
Optional/General comments
