PART 1: Review Comments

	Reviewer's comment	Author's comment *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments	The discussion should be organized for each parameter of the study such as the stem diameter, plant height, dry and fresh weight .....etc	
Minor REVISION comments	The author/Authors show the average of the 20 replicates in the figures. It is preferable to shown the 20 replicates for the 6 treatments. It gives better regression for statistical analysis	
Optional/General comments	The measured parameters of the plants for different treatments should organized in sub items under results and discussion.	

PART 2:

	Reviewer's comment	Author's comment *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Are there ethical issues in this manuscript?	*(If yes, Kindly please write down the ethical issues here in details)*
