

SDI Review Form 1.6

Journal Name:	Journal of Engineering Research and Reports
Manuscript Number:	Ms_JERR_47643
Title of the Manuscript:	Neonatal Incubator Embedded Temperature Control and Monitoring Using GSM
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>1.Results not convincing 2. The product designed is not highly elaborative and reliable in terms of precision and better presentation of results.</p>	
Minor REVISION comments		
Optional/General comments	<p>The following strong reasons:</p> <ol style="list-style-type: none"> 1. The introduction of the approach doesn't suitable and much reliable for real-time implementation. 2. The System just contains measurement of Temperature and alarming the doctors with regard to extreme values. 3. The presentation, language orientation of the paper is not fine and suitable and paper requires more re-work with regard to Research conducted, and Live Results. 	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
