General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	This paper deals with the reaeration equations for River Tungabhadra, it is important for the dissolved oxygen content in the waterbody, so I support it to be published in the journal after minor revision. 1, the text must keep the same letter format; 2, the equations are written by equation editor with the symbols of physical quantity in italic format, and keep in one line as possible; 3, tables are in three-lines format; 4, figure 3-6 have no vertical titles and the units, the titles are in the bottom not on the top of the figure; 5,	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
