General guideline for Peer Review process:

This journal's peer review policy states that <u>NO</u> manuscript should be rejected only on the basis of '<u>lack of Novelty'</u>, provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	It is important for the author to clearly bring out the problem in order to capture the attention of the reader. There exists a number of definitions which unfortunately are affecting the manuscript. It is necessary for the authors to clearly show the existence of problem which should be supported by objectives and sound methodology to support the findings. I find these missing in this work	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)	write his/her feedback here)
