PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments	No	
Minor REVISION comments	1. Indicate if the questionnaire or survey was validated by experts 2. If you want to reduce the health effects when producing charcoal, you could not recommend using kerosene 3. Indicate what software was used for the statistical analysis 4. Did you obtain the informed consent of the people who were subjects of study? Ethical issue: Through the study in which a survey was used to know socioeconomic aspects, production of charcoal, among others, did not use invasive techniques; however, the informed consent of the subjects under study could be obtained.	
Optional/General comments	This study allows to know the state of the charcoal production and the consequences in the health; in subsequent studies, its effect on the environment could be determined	

PART 2:

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Are there ethical issues in this manuscript?	*(If yes, Kindly please write down the ethical issues here in details)*
