

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Microbiology Research Journal International
Manuscript Number:	Ms_MRJI_41977
Title of the Manuscript:	Prevalence of Toxoplasmosis among HIV/AIDS patients and Correlation of Radiological Investigations with Laboratory findings
Type of Article:	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<p>1. In conclusion, the age wise prevalence can be included.</p> <p>2. In ethical issues, actually up to 18 years the adolescents are not eligible to give their consent, so the author can take from caregivers and assent form can be taken from adolscents. So, kindly verify before proceed.</p> <p>In word document many areas I have high lighted the red colour needed corrections in statements . For ex : 1. In background, Among patients with HIV/ AIDS, cerebral involvement is more common and more serious than extra-cerebral toxoplasmosis In can be stated that more common and serious . 2. Few studies in India observed sero-prevalence of 34.78% among HIV-positive patients¹⁷. But mentioned one reference. 3. References numbers can be stated that 43-47 in continuous number instead of mentioning 43,44,45,46,47</p>
