

SDI Review Form 1.6

Journal Name:	Microbiology Research Journal International
Manuscript Number:	Ms_MRJI_42829
Title of the Manuscript:	Isolation and characterization of non-Saccharomyces yeasts with improved functional characteristics for ethanol production
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Line 180. Referring to fig. S1, authors stated that the produced ethanol reached a concentration ranging between 80-92 g/L: however, from the figure S1 the ethanol concentration seem to be lower.</p> <p>In the figures, the standard deviations are often not reported: why? Do standard deviations have very small values?</p>	
Minor REVISION comments		
Optional/General comments	A proper experimental design was performed. For the most part the methods are appropriate and the results credible. The aims of the paper is clearly defined. The discussion is supported by data.
