<p>1. The ethnomedicinal use of plants were performed by plant parts as such. When we perform any research on any part or extract of the particular plant part/s, such old reports should be added.</p> <p>But the author does not agree. Now it is the decision of the Editorial board.</p> <p>2. Still some spelling mistakes are there, as line 69. These must be thoroughly checked.</p>
