

Editor's Comment:

It was observed that the author made some efforts in effecting some of the corrections.

However, not much was done in discussing the work. The author compared his work with only two published work by Ehiem and Simonyan (2012) and Mannan et al., 2003. Apart from the fact that the latter journal was too old for a 2019 journal publication, the two journals were barely insufficient for a discussion.
