

**Editor's Comment:**

I see it's accepted but they correct the mistake **Sample Collection and identification of plant material**. In the Feedback\_EJMP\_45096\_v3 , Authors said that **The samples for this research were collected between the months of March to July, 2016, but in the revised MS Sampling was carried out in the month of May from the tree. It's better to write Sampling was carried out from March to July, 2016.**
