

Editor's Comment:

I have gone through all the documents presented for the above-named manuscript and my comments are as follows:

Reviewers:

all the 3 reviewers did very sound editorial works and I do commend them for relevant scientific inputs for the manuscript.

Scores :

scores given by Professors Solano and Poina are acceptable to me-thus that they recommended publication of the manuscript is also acceptable to me

Some of the comments of the third reviewer and subsequent rejection of the manuscript are not acceptable to me.

Recommendations

- (a) I will go along with the recommendations of Professors Solano and Poina.
- (b) The manuscript should be accepted after some minor editorial comments I inserted in the REVISED MANUSCRIPT-see attachment.
- (c) Authors MUST :
- (d) improve on the alignments of all the tables;
- (e) insert the processing times for methods used in lines 119-120 of the revised MS
- (f) the references section should follow journal format-authors will see RED MARKINGS that can be followed for all the references listed.
