

Editor's Comment:

I had gone through the details of the manuscript you had sent for my editorial decision. The manuscript requires moderate revision before it could be accepted for publication.

The authors have revised the manuscript on the suggested lines of the reviewers. However, as I had gone through the revised manuscript certain shortfalls that needs attention was found. I had marked these directly on the annotated manuscript attached herewith. The manuscript is acceptable after making the suggested changes.

Decision: Accept with moderate revision
