

**Editor's Comment:**

**Final corrections cited for**

**Manuscript number: 2019/JERR/47564**

**Manuscript title: COMPARATIVE STUDY OF WEEKLY DISCHARGE RATE OF TWO SOLAR BATTERIES COMMONLY USED IN ANAMBRA STATE.**

- 1) Delete lines/words marked in the returned manuscript.
- 2) Do proper formatting of the manuscript. Look into punctuations and spell check else use the template of the Journal.  
(Some sections are in bold letters and others in normal text, Look and correct the words having red underlines. Certain sections are not justified.
- 3) Draw block diagrams in Paint as Jpeg file and embed in the manuscript.
- 4) Sizes of legends for figure and Charts should be as that prescribed for the journal.
- 5) The suggestion to place the eight weeks discharge in a single graph (See the model attached herewith as example) is not followed; this will reduce the total graph into two only as well as space.
