

Editor's Comment:

The manuscript is relevant; however few corrections should be conducted to further improve the quality of the paper.

The manuscript entitled "Asymptomatic Bacteriuria among Pregnant Women Attending Antenatal Care at the Korle-Bu Teaching Hospital Accra, Ghana: A cross-sectional study" is relevant, unpublished and dissemination of the results of this study will certainly contribute to the scientific community. However, grammatical corrections should be made to improve the quality of the manuscript submitted. Some suggestions are highlighted in the manuscript. Please, format the references. Some references are without the name of the journal, some references the name of the journal are abbreviated and others are not.
