Manuscript Number:	Ms_AJMAH_29693
Title of the Manuscript:	ACUTE EFFECT OF TOBACCO SNUFF CONSUMPTION ON PLASMA TOTAL PROTEIN, ALBUMIN, GLOBULIN AND FASTING BLOOD SUGAR LEVEL IN RATS
Type of Article:	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
This research hasn't completely proved degree of toxicity of the studied tobacco and histologic researches could give more total characteristic, but if authors want, they can be limited also to these data.	Thanks for this comment, but the histological studies will be included when the work is been carried out again. But for this study, we have concluded the experimental work.
