<b>EDITORIAL COMMENT'S on revised paper (if any)</b>	<b>Authors' response to editor's comments</b>
<p>It was observed that the author made some efforts in effecting some of the corrections.</p> <p>However, not much was done in discussing the work. The author compared his work with only two published work by Ehiem and Simonyan (2012) and Mannan et al., 2003. Apart from the fact that the latter journal was too old for a 2019 journal publication, the two journals were barely insufficient for a discussion.</p> <p>The author could do better in this regard.</p>	<p>We have been able to compare with two more published work after much research, we hope that these will be sufficient for the discussion.</p>
