

**SDI Review Form 1.6**

Journal Name:	<a href="#">Asian Food Science Journal</a>
Manuscript Number:	Ms_AFSJ_50253
Title of the Manuscript:	Effect of pH and Sugar level on Heat Resistance of <i>Escherichia Coli</i> in Sweet Orange Juice ( <i>Citrius Sinensis</i> ).
Type of the Article	Original Research Article

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**Lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>See comments on paper.</p> <p>-Some results are not mentioned in methods. Mention the materials and methods for all results reported</p> <ul style="list-style-type: none"> <li>- <b>Manufacturers details for materials and equipment are missing</b></li> <li>- <b>Reference format has not been followed in text and list</b></li> <li>- <b>For a full length research article, three journal papers in reference list is not sufficient. Include at least another 10 recent papers to show current knowledge</b></li> <li>- <b>Study was supposed to be about pH and sugar. The variations of these in the Materials and Methods and the result output was not shown.</b></li> <li>- <b>Tables shown was all about time and temperature. Consider changing the title</b></li> <li>- <b>Manuscript should undergo English edition or proof read by somebody proficient in English</b></li> </ul>	<p>We have agreed to effects all the necessary corrections.</p> <p>It has been corrected by us all. Reference format has now been corrected We have added more references now Study was incorporation of P<sup>H</sup> and Sugar level on the orange juice. The microbial growth was showed in the various tables and was subsequently used to plot the graphs. Table all about time and Temperature was as a result of heating of <i>E.COLI</i> in water bath against various time and temperature which was the purpose of the work, that was our major concern in the research Manuscript has been proof read by someone proficient in English.</p>
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments		

**PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
