

SDI EDITORIAL COMMENTS FORM

EDITORIAL COMMENT'S on revised paper (if any)	Authors' response to editor's comments
<p>I agreed with the first reviewer that the abstract should be shortened. For instance, about the recommendations mentioned in the final part of the abstract. The author (s) only says...."Then the study ends with some recommendation". So, no need to elaborate the recommendation in the abstract. Also about the project, just explain briefly.</p> <p>I also think an academic paper needs a literature review chapter. This is needed for two reasons: 1) to construct a theory/a theoretical framework for the analysis, and/or 2) to assess the importance/value added of the paper.</p>	<p>Abstract revised as per recommendation</p> <p>Included a chapter on literature review</p>
