Type of the Article	Original Research Paper.

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	No	
<u>Minor</u> REVISION comments	<ol style="list-style-type: none"> 1. Edit for grammar and sentence/s as per comments. 2. Add discussion to make findings scientifically relevant. 3. Add research design in methodology. 4. Clearly describe sampling technique and study population. 5. In abstract sample size is 392 children, whereas, in results it is 319 and 315, there seems some mistake. Let the author check and correct data base, 6. Kuppaswamy scale is used for assessing SES, but not mentioned in references. Mention it. 	Changes made as per the reviewer's comments.
<u>Optional/General</u> comments	Researchers, generally, fail to differentiate between design, methods and techniques of data collection. These are prerequisites for research.	N.A.

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>	There are no ethical issues in this manuscript.
