

SDI Review Form 1.6

Journal Name:	Asian Journal of Probability and Statistics
Manuscript Number:	Ms_AJPAS_50217
Title of the Manuscript:	Solutions to the equations governing convective flow of two viscous immiscible dusty and pure fluids in a vertical corrugated wall and a parallel flat wall
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> 1. Please rectify the grammatical errors. 2. Please add nomenclature part. 3. Retain the important effects in keywords. 4. The original points must be explained well 5. Please check all equations used. 6. The revised version should contain recent articles deals with considered problem and must be more extended. 7. Results must be physically discussed. 8. Give more discussion on concluding section. 9. Add the following literature to enrich the Introduction section of this article: <ul style="list-style-type: none"> ✓ Heat Transfer - Asian Research, vol. 48, no. 4, pp. 1225-1244, 2019. https://doi.org/10.1002/htj.21428 ✓ Engineering Science and Technology, vol. 20, no. 4, pp. 1324-1333, 2017. ✓ Defect and Diffusion Forum, Vol. 387, pp. 417-427, 2018. http://dx.doi.org/10.4028/www.scientific.net/DDF.387.417 ✓ Heat Transfer - Asian Research, vol. 48, no. 1, pp. 135-147, 2019. https://doi.org/10.1002/htj.21375 ✓ Journal of Advanced Research in Fluid Mechanics and Thermal Sciences, vol. 58, no. 02, pp. 173-186, 2019. ✓ Multidiscipline Modeling in Materials and Structures, vol. 15, no. 4, pp. 737-757, 2019. http://dx.doi.org/10.1108/MMMS-07-2018-0133 10. Add more points to the conclusions 11. Write the conclusion in the form of important points. 12. The manuscript needs more recent references, the authors must be add it. 	All the comments have been adhered to but on comment 9, the work done by the authors only on heat transfer but I was more interested on literature about immiscible fluids because that was my main focus.
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)	NO
