

SDI Review Form 1.6

Journal Name:	Asian Research Journal of Mathematics
Manuscript Number:	Ms_ARJOM_50206
Title of the Manuscript:	Some Inequalities for the Extension of k-Gamma Function
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	<p>The authors gave the extension with two parameters of Euler classical gamma function. Consequently, some new results were established by using $H\{o\}$lder.</p> <p>First of all, the results in this paper are new to my knowledge. Secondly, I am convinced that they are correct by checking the proof. In my opinion the paper under review is interesting and merits publication in Asian Research Journal of Mathematics. So I am pleased to recommend the paper for publication.</p> <p>Some collections:</p> <p>(1)~~"Diaz" should change into $D\{i\}$az";</p> <p>(2)~~"Holder" should change into $H\{o\}$lder";</p> <p>(3)~~"Mitrinovic" should change into $Mitrinovi\{c\}$";</p>	<p>(1) I changed "Diaz into $D\{i\}$az";</p> <p>(2) I changed Holder into $H\{o\}$lder";</p> <p>(3) I changed Mitrinovic into $Mitrinovi\{c\}$"</p> <p>Thank you.</p>
Optional/General comments
