EDITORIAL COMMENT'S on revised paper (if any)	Authors' response to editor's comments
<p>1. The scope of this article talks about chlorella cultivation, and does not explain biomass production.</p> <p>2. Therefore, it is necessary to revise the article title. Also, the author must put Nigeria in the title.</p> <p>3. organization, grammar and language correction is needed for publication</p>	<p>1) <i>Chlorella</i> is a species of algae; biomass is produced form cultivation. The growth of algae is measured by biomass concentration produced during cultivation.</p> <p>2) Chlorella sp is a freshwater alga that can be isolated and culture in various part of the world. The experiment can be repeated anywhere in the world, Therefore I see no reason putting Nigeria in the title.</p> <p>3) Grammar and language corrections have been made.</p>
