EDITORIAL COMMENT'S on revised paper (if any)	Authors' response to editor's comments
<p>The study is small (few animals) and only a very limited number of parameters has been investigated.</p> <p>The Conclusion saying that the product is good for the management of diabetes and weight control cannot be substantiated from the few results presented.</p>	<p>With respect to the number of parameters investigated and the potential for future research on the subject matter, the conclusion has been rephrased to suggest that the product could have the potential for the management of diabetes and weight control. This revision is highlighted in red.</p>
