PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	<p>The ABSTRACT is not presented in the style of the journal: guidelines to authors is found on http://www.sciencedomain.org/journal/19/authors-instruction</p> <p>References presented in the text are to be indicated by brackets, [2], etc. (see above site for authors).</p> <p>Line 61 has reference 8 that is a superscript, which is not the style of the journal. For REFERENCES, the journal title should be followed by a period . in all references.</p> <p>The CONCLUSION should be indicated by secondary major title, ie <u>CONCLUSION</u></p> <p>Authors should review the text for misspelled words.</p>	I agree with the reviewer but all the observations have been taken care of and all have been corrected in the manuscript.
<u>Minor</u> REVISION comments		This has been complied with.
<u>Optional/General</u> comments	<p>This paper is a study on the proliferation of MDR-TB affected by social conditions such as poverty, education, alcohol, and tobacco use, etc.</p> <p>This is an interesting study and could provide very useful information to clinicians contended with MDR-TB incidence in complex social strata.</p> <p>The authors have presented many Tables, but the Tables are appropriately described and placed in the RESULTS section.</p> <p>The information presents relevant social status</p>	

	<p>information that could be very important in various scenarios in which clinicians may find themselves operating.</p> <p>The paper can be ACCEPTED after the authors correct issues listed above.</p>
