### **PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b><u>Compulsory</u></b> REVISION comments	<p>.</p> <p><b>Manuscript need to be resubmit as short clinical reports or case study. Details on the use of the drugs need to be elaborate</b></p>	This paper is neither a clinical report nor case study. It is an original paper on a study of the potency of a combined therapy towards effective treatment of multi-drug resistance Tuberculosis (MDR-TB). The combination recipe was properly stated on how the durgs were combined and in each case, the duration it lasted.
<b><u>Minor</u></b> REVISION comments		
<b><u>Optional/General</u></b> comments		

### **PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> <i>(if agreed</i>
--	---------------------------	---

		<i>with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Are there ethical issues in this manuscript?</b>	<i><u>(If yes, Kindly please write down the ethical issues here in details)</u></i>	<p>There are ethical issues:</p> <ul style="list-style-type: none"> <li>(i) The ethical committee of the hospital in conjunction with NOUN ethical committee gave approval to the study.</li> <li>(ii) Informed consent was obtained from the patients involved after explaining the benefits they will get from participating</li> <li>(iii) The patients identities were hidden and were not made known to anybody including their relations. This feedback is already in the manuscript.</li> </ul>
