

SDI Review Form 1.6

Journal Name:	Journal of Advances in Biology & Biotechnology
Manuscript Number:	Ms_JABB_48815
Title of the Manuscript:	Phytochemical Composition of Ethanol Extract of a cocktail Herbal Mixture (Aju Mbaise)
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)														
Compulsory REVISION comments	<p>In keywords, the word Xylopia aethiopica don't need to be written anymore, because Aju Mbaise has a mixture of this herbs</p> <p>On row 80-81 what is the relationship between diuretics against stomach and duodenal tumors</p> <p>On row135 what is the mesh size of the powder</p> <p>check the test for phenols method , extracts only given water can be colored ?</p> <p>What standards are used for calculating alkaloid , cyanide, glycoside, saponin, steroid and terpenoid content?</p>	<div><div><div>1. Xylopia aethiopica has been replaced with Ethanol</div><div>2. The sentence was meant to read “Its therapeutic properties include its use as diuretics, as astringents against diarrhea, stomach and duodenal tumours [28].……,”</div><div>3. It was not evaluated</div><div>4. The initial method was written in error.</div><div>5.</div></div><table><tr><th>Phytochemical</th><th>Standard</th></tr><tr><td>Alkaloid</td><td>Caffeine</td></tr><tr><td>Cyanide</td><td>Hydrogen cyanide (HCN)</td></tr><tr><td>Glycoside</td><td>Quercetin</td></tr><tr><td>Saponin</td><td>Saponin standard</td></tr><tr><td>Steroid</td><td>Cycloartenol</td></tr><tr><td>Terpenoid</td><td>Linalool</td></tr></table></div>	Phytochemical	Standard	Alkaloid	Caffeine	Cyanide	Hydrogen cyanide (HCN)	Glycoside	Quercetin	Saponin	Saponin standard	Steroid	Cycloartenol	Terpenoid	Linalool
Phytochemical	Standard															
Alkaloid	Caffeine															
Cyanide	Hydrogen cyanide (HCN)															
Glycoside	Quercetin															
Saponin	Saponin standard															
Steroid	Cycloartenol															
Terpenoid	Linalool															
Minor REVISION comments	<p>On row 124, 168, 211 and 253 move to the next page, the title should not be separated from the contents</p> <p>On row 305 Tabel 1 and 316. Tabel 2 The letters in a table are usually smaller than text</p>	ALL THE NECESSARY ADJUSMENTS HAS BEEN MADE.														
Optional/General comments	<p>Only 22Refernces which up to date, the others more than 10 years</p>	References used were dependent on my choice of article, which I considered more suitable and appropriate when compared to my study.														

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
