Compulsory REVISION comments	<p>-The author must include the AMS 2010 Classification.</p> <p>-The author must include two references at least of 2017, 2018 of related works or research.</p> <p>-The paper is a complete research on the modified Laplace method to obtain the optic soliton solution of the Schrödinger equation.</p>	<p>-The AMS 2010 classification is included.</p> <p>- We have made progress on adding and preliminary analyzing some 2017, 2018 and even 2019 relevant research works as they are highlighted wherein appeared. The earliest Completion of the manuscript and the late sending to publication of the article has made the time gap of the references.</p> <p>-“ The paper is a complete research on the modified Laplace method to obtain the optic soliton solution of the Schrödinger equation”. We agreed to this and we have stated this as clearly as possible in the Article (After editing).</p>
