

SDI Review Form 1.6

Journal Name:	Journal of Advances in Medicine and Medical Research
Manuscript Number:	Ms_JAMMR_48849
Title of the Manuscript:	EVALUATION OF NEPHROPROTECTIVE PROPERTIES OF AQUEOUS AND HYDROETHANOLIC EXTRACTS OF CRINUM SCILIFOLIUM AGAINST GENTAMICIN INDUCED RENAL DYSFUNCTION IN THE ALBINO RATS
Type of the Article	Original research papers

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	<ol style="list-style-type: none"> 1. The number of rats per group is quite small (n = 6) for the quantitative analyses; blood and urine chemical tests. 2. You collected the rats' kidneys as mentioned in the section #2.3, thus your work would be more valuable if you present the histological findings in these rats' kidneys. 3. How did you collect the 24 hour urine sample from the rats? 4. How did you measure the chemical concentrations in the rats' blood and urine; what reagents and analyzer were used? 	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>	The experimental procedures were conducted after the approval of the Ethical Guidelines of University (Côte d'Ivoire) Committee on Animal Resources. All these procedures used, were in strict accordance with the guidelines for Care and Use of Laboratory Animals and the statements of the European Union regarding the handling of experimental animals (86/609/EEC).
