

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Journal of Experimental Agriculture International
Manuscript Number:	Ms_JEAI_49543
Title of the Manuscript:	Potential of entomopathogenic fungi as biological control agent of whitefly (<i>Bemisia tabaci</i> biotype B) (Genn.) (Hemiptera: Aleyrodidae)
Type of Article:	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<p>Most of the comments I made on the previous version of this manuscript have been included to this new version. However, I've indicated other comments directly on the manuscript.</p> <p>I think crucial background information is missing in the introduction and the discussion, in particular about other previous biocontrol studies focusing on the same insect pest of the same biocontrol agent.</p> <p>In addition, I think the English is still very weak in some paragraphs, and the manuscript would gain in clarity if it was edited by a native speaker.</p>	<p>We review and correct all reviews of the reviewer, as well as, the questions.</p> <p>We appreciate your contribution to the work.</p>
