SDI Review Form 1.6

PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|---|---|
| Compulsory REVISION comments | <p>In general, the contents of this article are very good. But narrative and descriptive analysis need to be added in the discussion and recommendations section, so that the analysis results become more practical and comprehensive, namely:</p> <p>- In the discussion section:</p> <ol style="list-style-type: none"> The Authors should also need to provide narrative and descriptive analysis of technical solutions to improve the quality of teaching teachers in the classroom The Authors should also need to provide the technical solutions to improve the quality of teacher learning in the classroom The author also needs to discuss the suitability of the teacher's education level with the school needs. The author also needs to discuss the form of policy for Director of the school to increase its responsibility in improving the quality of learning in schools, so that it will have an impact on improving the quality of education. It is also necessary to discuss how forms of globalization need to be adopted to improve the quality of education effectively <p>- In the recommendations section:</p> <ol style="list-style-type: none"> The author should provide recommendations, which factors are the most urgent in the short term to find a solution so that the quality of education increases significantly. It is also necessary to provide recommendations for a concrete actions that need to be taken by the government in the short, medium and long term periods. | <p>Done</p> <p>Corrected</p> <p>Revised</p> <p>Done</p> |
| Minor REVISION comments | <ol style="list-style-type: none"> In the discussion section (line 239), there are four main aspects mentioned, but there are 7 main aspects discussed in this article. Maybe just need clarification. To be more representative, the data in the table should also be made in graphical form. | |
| Optional/General comments | This research is very interesting, because the quality of education in general is a problem for developing countries. Success in managing education for the younger generation is one of the main keys in improving the lives of the people of a country. | |

PART 2:
