SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>The manuscript contains important mistakes in compilation and academic writing:</p> <ol style="list-style-type: none"> 1. The manuscript contains important references to Figures 20, 21, 22, but such Figures are not in the manuscript. If there are references to Figure 8, Figure 20, Figure 21 and Figure 22, the manuscript should include Figures 9 to 22 as well. 2. The Figures must be placed and numbered in the order in which the manuscript is referenced, that is to say, first refer to Figure 1, then Figure 2, and so on. However, in the manuscript, references to the Figures are in the very wrong order – Figure 1; Figure 5; Figure 6; Figure 2; Figure 3 etc.. 3. The reference list contains items [2] that is not referred in the article. 4. Line 420 contains reference in another style " according to Ponte (1969)" not found in Reference list. 5. Launching a sentence with a numerical reference is a great mistake in academic writing. The correct academic style requires the author of the work to be referred to before the numerical reference. Very wrong is - "[12], in a work on the Ganges-Brahmaputra" or "[5] wrote about the", etc, etc. The sentence could be started like this "Research by Carminati, Martinelli and Severi [5] shows that ..." 	The paper has been thoroughly modified
Minor REVISION comments	<ol style="list-style-type: none"> 1. The references to Figures should be used one style – used "Figure 1", "Fig. 4", "Figures 4 e 5". ???. 2. There is no space between words: line 236 "Signal[16]", line 499 "127p.", line 502 "theGanges-Brahmaputra", line 528 ":807". 	
Optional/General comments
