Compulsory REVISION comments		
Minor REVISION comments **X**	It is a very interesting paper about the role of bamboo in the climate mitigation. There are only a few mistakes in the text, as reported (in yellow). However, I think that it is necessary to highlight the difference between tropical bamboo (as *Dendrocalamus* and *Bambusa*, for example) and temperate bamboo (as *Phyllostachys* species). It is a very important question in terms of bamboo plantations.	Yes, I agreed and accept the comments, following that I tried to correct all points in addition to that I added some points in importance of bamboo species towards mitigating climate change impacts and other related issues.
Optional/General comments
