PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> 1. The research work is ok and has matter to publish as research paper, however, it is NOT proofread (Sentence Framing is very poor). This correction should be done in the revised manuscript. 2. The presentation part is very poor and need to be improved a lot before publication 3. The paper is too lengthy to read and difficult to understand. Large amount of matter(About 60%) in the paper should be edited. It is reasonable if the paper contains some 8-10 pages without losing the content of the work. As per my knowledge, it is possible edit and make paper more beautiful to read. 4. As conclusion part is heart of the paper and hence the author is requested to improve the presentation style write the conclusion chapter point wise. 5. Description of 2K-V type reducer transmission principle is very poor and need refine a lot and the sentences framing are difficult understand. 	<ol style="list-style-type: none"> 1. According to the reviewer's suggestion, the most sentences and punctuation throughout the article has been Corrected, and highlighted it. 2. It has been identified as "1. Introduction" on the introduction topic after the abstract and keywords, and highlighted it. 3. According to the reviewer's suggestion, the article has been modified. 4. The conclusion part has been modified. 5. 2K-V type reducer transmission principle is a very complicated process, according to the reviewer's suggestion, I have made improvements in this area.
