

**SDI Review Form 1.6**

Journal Name:	<a href="#">Microbiology Research Journal International</a>
Manuscript Number:	Ms_MRJI_49459
Title of the Manuscript:	Biofilm,Antimicrobial& Reductive ability of  London rocket S. irio
Type of the Article	

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**SDI Review Form 1.6**

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>General Revision</p> <p>Individual In Abstract API in full spelling.</p> <p>The best absorbance was MeOH &gt; H<sub>2</sub>O &gt; EtOH. The best extract was MeOH&gt; EtOH &gt; H<sub>2</sub>O. Why the both differ?</p> <p>In introduction Staphylococcus aureus and Streptococcus pyrogens are in italic.</p> <p>Table 2 is unnecessary, thus delete.</p> <p>Table 3 is unnecessary, thus delete because the above sentences were described about Table 3 content.</p> <p>The best absorbance was MeOH &gt; H<sub>2</sub>O &gt; EtOH. The best extract was MeOH&gt; EtOH &gt; H<sub>2</sub>O. Why these differ? Please discuss.</p> <p>Your paper has insufficient result and no discussion. For the original research article, sufficient discussion is indispensable.</p> <p>The order of MeOH&gt; H<sub>2</sub>O&gt;EtOH is difficult to comprehend because hydrophilicity order is H<sub>2</sub>O&gt; MeOH &gt; EtOH and hydrophobicity order is EtOH&gt; MeOH &gt; H<sub>2</sub>O, thus no order of MeOH &gt; H<sub>2</sub>O&gt; EtOH or MeOH&gt; EtOH &gt; H<sub>2</sub>O, so it is indispensable to discuss why these are not the order of hydrophilicity or hydrophobicity. Please.</p>	All the corrections done
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments		

**PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
