PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Authors should correct some grammatical errors. Authors used two different types of references in the body of the work. It is either they use e.g [1] or the name of the author depending on the referencing method of the journal. One method was used in the introduction while in the 'discussion of results' both methods were mixed up.</p> <p>Authors should discuss more on the diseases for which the bacteria inhibited could cause to the body or are associated with. This will enlighten the readers more on how and on what infection to use the leaf extract.</p>	<p>Grammatical errors corrected. The refencing method have been changed to one single method according to the journal format.</p> <p>The diseases caused by each of bacteria inhibited have been added to the discussion part.</p>
Minor REVISION comments		
Optional/General comments
