

**SDI Review Form 1.6**

Journal Name:	<b>Physical Science International Journal</b>
Manuscript Number:	Ms_PSIJ_50145
Title of the Manuscript:	Calculation of Relative Uncertainty when Measuring Physical Constants: CODATA Technique vs Information Method
Type of the Article	Original Research Article

**General guideline for Peer Review process:**

This journal's peer review policy states that NO manuscript should be rejected only on the basis of 'lack of Novelty', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The main objective of this study is to analyze the results of measurements of the Boltzmann, gravitational and Planck constants using a theoretically sound information approach in comparison with the CODATA technique. Discussion and conclusions are supported by the data discussed inside the manuscript. I expect the paper to be suitable for publication.	Thanks
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments		

**PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)	<ol style="list-style-type: none"> <li>1. I, the alone corresponding author, am authorized to submit this manuscript.</li> <li>2. Submission of the manuscript represent that the manuscript has not been published previously and is not considered for publication elsewhere.</li> <li>3. The manuscript, or any part thereof, is in no way a violation of any existing original or derivative copyright.</li> <li>4. The manuscript contains nothing obscene, indecent, objectionable or libelous.</li> <li>5. Declarations of interest: none</li> </ol>
