**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**SDI Review Form 1.6**

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>The whole document needs to be edited by a professional English editor            Use Log<sub>10</sub>cfu/ml as the standard symbol throughout the document            Total coliform is not a species name hence must be not be italicized throughout the document            Spelling of <i>Staphylococcus aureus</i> must be correct throughout the whole document            Methods must be referenced against other published acceptable work            Results section must be redone ensuring the following</p> <ul style="list-style-type: none"> <li>Avoiding redundancy / repeating information e.g. Table 1 has information that is communicated in Figure 1 (a)</li> <li>Tables must use standard publishable formats</li> <li>All figures are sub standard. Pay attention on the following aspects               <ul style="list-style-type: none"> <li>Bars to include standard deviation bars</li> <li>X and Y axis to be labelled</li> <li>Descriptive titles to be used</li> <li>Don't use short names like Staph</li> <li>The figures are too many and redundant. Choose the few most important ones</li> </ul> </li> </ul> <p>Discussion must not repeat results but rather discuss them e.g. line 214-266 is not discussion but rather results explanation            A study conclusion is required            Confirm with journal requirements but I don't the title is Literature cited but rather References</p>	
<b>Minor</b> REVISION comments	Word spellings and grammar throughout the document	
<b>Optional/General</b> comments	N/A
