(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	It is a good topic; but the author is not careful in writing it; some important note are : (1) In abstract : there are 56 farmer in secure as they took below 2122 kilo calorie per day per person and rest 46 percent were nutritionally secure. So if added to 102 %... this is not thorough (2) Using 10 persen for statistical test is too weak and rarely used. (3) There is un clear sampling technique in method used, and please making concise for data anylisis, this is inferential analysis using regression method; please display the result of data analysis through ANOVA table, and include the coeficient of determination. (4) We do not know which independent variables are significant, because there is no sporting data (5) Conclusion are not in accordance with research purpose	
<b>Minor</b> REVISION comments	Please make the clonclusion in accordance with research purpose and data analysis	
<b>Optional/General</b> comments		

**PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
