| Type of the Article | Original Research article |

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|---|---|
| Compulsory REVISION comments | | |
| Minor REVISION comments | | |
| Optional/General comments | <p>The main objective of the research article should be included. The main objective is not clearly mentioned, so the introduction and conclusion sections are also not clear for the reader (s).</p> <p>Even though the references are described in the main text, some of the sentences/ reasons should be described in the main text. (this point is already mentioned in section 2.1)</p> <p>The described findings are not clear for the readers. The author (s) need to revise the described findings (the sentence structure). The simple structure should be used to describe the findings.</p> | |
