Manuscript Number:	Ms_AJMAH_49954
Title of the Manuscript:	QUINSY IN ADULT: CLINICAL PROFILE AND MANAGEMENT CHALLENGES IN TWO TERTIARY HOSPITALS NORTHWEST NIGERIA
Type of the Article	Original Research Article

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	Line 117→ there is no analysis of data. So I don't think you require SPSS program for this. Audit data can be done through use of excel program. Figure 1→ I don't think pie chart can be used to show this. The pie is not 100%. You can use a layout chart to show the total patient and what further happened or was done to them. Line 240→ fatal complication? Conclusion→ sample size is very small, this can be included as a limitation for the study.	
<b>Minor</b> REVISION comments	Line 16-17→ sentence restructuring required Line 25→ odyphagia spelling Line 36→ spelling mistake Line 82→ spelling mistake Line 145→ spelling mistake	
<b>Optional/General</b> comments		

**PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
