PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<p>I believe that improvements have been made in this manuscript but I continue to find it disorganized and hard to follow. The English continues to need considerable improvement. The main thread is that sleep disorders are important to treat, that children suffer from a variety of sleep disorders and that there are simple ways for parents to treat these disorders, but what are these simple ways?</p> <p>My suggestion is that the authors do an outline of the paper and perhaps number the sections. In this way, the organization might become clearer.</p>
