PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Animal psychology is an involved and complex subject, with a comprehensive research literature base. This manuscript, which consists largely of summaries of anecdotes about individual animals attached to an unrelated, long, opinion piece describing the author's opinions about the ethics of animal research appears to be written for the layperson, rather than the serious researcher, would be better suited as a newspaper or magazine article for a popular publication than to a scientific journal.	
Minor REVISION comments		
Optional/General comments	See above Resubmit to a lay scientific publication.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
