PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>The author needs to carefully verify the text and correct this taking into consideration the performed comments. For instance, at the Introduction section, the author should specify that the proposed study is the first one (as regard the used species).</p> <p>For Material and Methods section, I proposed to structure the information, to be clearly understood by the reader. Also, at the section end, a short presentation of the Statistical analysis tools is necessary.</p> <p>For Results section, some data are not necessary to repeat as I have been mentioned.</p> <p>For Conclusion, please refer only to your presented results. Other comments (as for instance as regard as the influence of the exposure time to the pollutant) can be a part of the Discussion section.</p> <p>It seems that the used literature is generally old. There are not recent data on this topic?</p>
