

SDI Review Form 1.6

Journal Name:	Annual Research & Review in Biology
Manuscript Number:	Ms_ARRB_50257
Title of the Manuscript:	A novel test system for genotyping rs43703016 single-nucleotide substitutions in the bovine CSN3 gene
Type of the Article	Method Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	It is an excellent article. The authors give a practical use to the molecular technique to determine the polymorphism of a gene that is associated with the production of a milk protein. It would be important to discuss more about the importance of the use of molecular techniques as a tool that allows the genetic selection of this type of cows, as well as if there are works with other techniques so that they can compare their results and determine the advantages that has the use of real-time PCR and PCR-RFLP, to carry out these studies and the importance it would have for the dairy industry to make the selection of cows with this productive characteristic.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
