PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	I have found the paper very interesting and it is very well suited to the journal scope. I have few comments as mentioned below; The authors have cited a paper where they mentioned that race has an effect on diabetes especially black suffer more. Then why did the authors used albino rat? Why not black rat? Is it possible to include the image of Aju Mbaise tree? How do we know the experimental Rat were diabetic? Does this concoctions improve diabetes?	
Minor REVISION comments	Is it possible to include recent references? All the references are of 2016 or earlier.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
