

SDI Review Form 1.6

Journal Name:	International Journal of Biochemistry Research & Review
Manuscript Number:	Ms_IJBCRR_46376
Title of the Manuscript:	Studies on the effects of Fanta additives and simultaneous consumption of Fanta with ascorbic acid on histological parameters of male mice
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	1-The manuscript title should be reviewed and it would have been better to have the title "Histological Studies on the effects of Fanta additives and simultaneous consumption of Fanta with ascorbic acid on male mice" 2-The paper is full with many grammar and language problems, it should be reviewed. 3-The author should mention the weight and the age of mice that used in the experiment and also the number of mice in each group. 4-References should be updated	
Minor REVISION comments		
Optional/General comments	1-The abstract is clear and concise. It does fully summarize the contents of the article 2- The study objectives clearly stated.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i> Animals were handled carefully and all experimental procedures were approved by the author institution's Animal Research Ethics Committee.
