

**SDI Review Form 1.6**

Journal Name:	<a href="#">International Journal of TROPICAL DISEASE &amp; Health</a>
Manuscript Number:	Ms_IJTDH_47342
Title of the Manuscript:	MALARIA VECTOR ABUNDANCE AND THE INCIDENCE OF MALARIA PARASITEMIA AMONGST STUDENTS LIVING IN NNAMDI AZIKIWE UNIVERSITY HOSTELS
Type of the Article	Original Research Article

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>Line 49: It should be Malaria infection and not malaria parsitaemia.</p> <p>Line 55: Change all the Malaria parasitaemia to malaria parasite.</p> <p>Line 82: For this type of study Verbal consents not acceptable</p> <p>Microscopy: The Plus (+) system is not acceptable for this type of study to determine the prevalence of malaria. Parasite density needs to be calculated to be able to determine the malaria prevalence in this study. The PI should get all the slides and give it to a good microscopist to read the slides. So the parasite density can be calculated.</p> <p>Line 125: Was the white sheets laid on the walls or on the floor of the rooms before spraying with insecticide?</p> <p>References: The references were too old. Only four of the references were Less than 10 years old.. Recent references should be cited.</p>	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments	The methodology of the study was not properly carried out.
