PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>This Review article is calling the attention to the potentially serious consequences of inappropriate antibiotic prescription. It correctly describes the clinical appearance, the relapses and the consequences of the serious C. difficile infection. The summary of the treatment possibilities is correct along with the description of the faecal microbiome transfer (FMT). I wish to call the attention of the author that antibiotics produced dysbiosis might be associated with long term consequences as obesity, neurodegenerative diseases, etc. Congratulation.</p>	
Minor REVISION comments		
Optional/General comments
